## Pre-Hearing Note 2 to the Council

**26<sup>th</sup> May 2023**

I have a few further queries relating to the Council's evidence base. It would be appreciated if you could facilitate the website changes as soon as possible and let me know the likely timescale for providing the information on boundary changes.

1. I've been unable to spot the following key evidence documents in the examination library. If they are missing, can I request that they are added. I think some of them may appear elsewhere on the Council's website, but it would be useful to have them all within the examination library.
  - East Riding Town Centres, Retail and Leisure Study 2019
  - Open Space Review 2012
  - Landscape Character Assessment 2018
  - Wind Turbine Sensitivity and Capacity Study 2018
  - Important Landscape Areas boundary review 2014
  - Gypsy and Traveller and Travelling Showpeople Accommodation Assessment 2018
  - Playing Pitch Strategy 2019
2. Can I ask the Council to produce a document which contains maps for each settlement where changes to the settlement boundary are proposed from the 2016 Plan, showing what the change is (e.g. with the current line and the new proposed line). It would also be useful if the document could detail the nature of the change, e.g. whether it involves a new allocation, reduced/enlarged allocation, de-allocation, or a consequential change as a result of an allocation/de-allocation. The Council is also requested to confirm whether, as part of the plan review process, it undertook a reappraisal of the settlement boundaries and identified minor corrections/adjustments (for example, to take account of OS boundary changes or completed development). If so, can I request that minor changes which are large/significant enough to be shown on a map are also depicted within the new document.

If you have any queries, please do not hesitate to contact me via the Programme Officer.
